Date	Projects
18-3-25	AI Enabled Block Chain solution for Indian Judicial System
	Media Guard : AI Powered image & video manipulation analyzer
	AGRI AI for diary : AI Powered live stock monitoring & Automated farm optimization
19-3-25	Intelligent shopping platfrom with realtime tracking and AI Negotiation
	IntelliWatch : Next Gen AI CCTV with Block chain
	Neural Lights: YOLO Powered AI for Real Time Traffic Control
	Digital energy optimization and consumption tracking using AI & IoT
20-3-25	Alumini Xcellence powered by AI for seamless Networking
	Block chain powered intelligent digital signature fraud detection
	AI Driven BIKE Resale Platform
	Blockchain driven IoT ecosystem for Next Level Poultry Management
	Next Gen Road Safety : Intelligent system for detecting Road Anamolies
21-3-25	The Multinews Hub with AI Assistant
	Veriscan Vote : Verified biometric scanning & Blockchain based voting system
	Safe Mail AI : Real Time phishing threat identification
	Industrial Evaluation IoT Enabled Application Control
	AI-Driven Detection and Prevention of Extreme Track Proximity Cases (ETPC) in Railway Networks
22-3-25	AI Powered food redistribution and waste control
	The Evolution of collabarative farming tool through rental
	AI Powered Email Alerts via Telegram BoT
	Elderly care and Emergency Alerts with gesture control (flex sensor)
